

we are also working as the agent and service provider of AFG Group, Netherlands, (www.dspa.nl) one of the best companies for the innovation and introduction of the new technologies for advanced fire protection, firefighting and fire knock down tools. AFG group promotes their products under the brand name of "DSPA" (Dry Sprinkler Powder Aerosol).

DSPA, an aerosol based fire extinguishing module can provide fire protection for Vault Rooms, Server Rooms, Ware Houses, Electrical Cabinets and for any closes area.

Key features of the technology:

- Fully automated portable and fixed type extinguisher
- The modules works without affecting oxygen levels.
- It attacks the flames within seconds.
- It can lower the temperature by as much as 700°F+ in as little as 10 seconds after deployment.
- It is non-toxic and environment friendly.
- It has long-term (15 years) of shelf life without any routine maintenance.

We are very sure that the above fully automated fire fighting products may be extremely essential for your use to protect your valuables from fire.
